

STUMPING STACKERS

What You'll Need: Each Rock 'N Ruler needs one complete set of letter tiles, A-Z.

Rulers agree on a four or five letter word (ie. CAPE) to start play. Rock 'N Ruler One selects four of their tiles and spells C A P E.

CAPE

Rock 'N Ruler Two then chooses to either select one, two or three of their letter tiles and stacks them onto or inserts them into the word created by their opponent. Rock 'N Ruler Two selects S and R and changes the word to S C R A P E. Rock 'N Ruler One now tries to Stump & Stack back with this move: S T R I P E D. Rock 'N Rulers continue trying to out stump the other by adding letters, stacking letters or inserting letters.

SCRAPPE

14

How It All Ends: When one Rock 'N Ruler stumps their opponent the round ends and that player scores 10 points. First Ruler to earn 50 points wins! Unstack and get your one complete alphabet back and you're ready for round two. Rock 'N Ruler Two starts the next round.

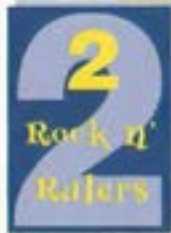

Simplify for Little Ones: Start with a three letter word. Players can stack or insert one or two letters only.

15

STAR WORDS

WHAT YOU'LL NEED:

Each Rock 'N' Ruler needs to make 2 star gameboards, pencil and one alpha rock.

LET'S ROCK:

Each Rock 'N' Ruler draws 2 stars and fills in a vowel of their choice in the center of each star.

Rock 'N' Ruler One

Rock 'N' Ruler Two

Rock 'N' Ruler One begins by rolling the die and recording this letter into any space on their star. If a "QU" is rolled, the player can choose to either record it in a single space or reroll the die. Players alternate rolling the die and filling in all spaces on their stars. Once both Rock 'N' Rulers have filled up their stars they now begin to record as many words as possible.

Example of Player One's Completed Stars

Star One

Star Two

Rolls **i, s, o**, ★ choose **p**, ★ choose **i, f, o, t, v**

44

STAR RULES

- ✦ Players can only use bordering or connecting "spaces" of their star when building words.
- ✦ Example **fat** counts
it counts
if does not count
foot does not count as **o**'s are not bordering +
- ✦ Words can be of any length.
- ✦ Letters can not be used twice. If that letter has been rolled and recorded in two spaces of that star, then it can appear in the word twice.
- ✦ If a word can be duplicated, it can only be recorded and scored once.
- ✦ Plurals are allowed.

SCORING

1 Point for each letter in each word.

EXAMPLE

Star One

of
it
at
out

fat
aft
oaf
Total = 18 points

Star Two

set
pest
pet
vet
step

let
vest
lest
let's
pets
Total = 36 points

Star TOTAL = 54 points

How It All Ends:

Both Rock 'N' Rulers complete their spelling and total their points. The Rock 'N' Ruler with the most points is the winner.
